TODAY & TOMORROW

RUSH — TIME DATED

(Newsbriefs continued)

The Accounting Office has moved from AC-7 to the Center for Educational Development at 15th and Folsom. The new mailing address is CED 322, but their phone extensions remain unchanged.

Individuals who must get material to the accounting office more quickly than the mail service can guarantee, should drop it off at the satellite office at AC-7 between 8 and 10:30 a.m. and 3:30 to 4:30 p.m. Mail dropped off in the morning will reach the Accounting Office by 11 a.m. If dropped off in the afternoon, it will reach the office by 8 a.m. the next day. Rush check requests left at the satellite office by 10:30 a.m. will result in a same-day check available for pick-up at the satellite office between 3:30 and 4:30 p.m.

If a personal visit is necessary, there are frequent shuttle buses. For shuttle schedules call the Transportation Office at x1511.

"The Healing Brain II," a symposium that will provide an up-to-date review of emerging trends in behavioral medicine, will be held on Saturday and Sunday, October 11 and 12 at the Sheraton-Palace Hotel, S.F.

The lasting effects of nutrition on brain development and how hypnosis and biofeedback may be used to mobilize the healing potential of the brain are a few of the findings that will be explored.

The symposium is sponsored by UCSF schools of Dentistry, Medicine, Nursing, Pharmacy; Continuing Education in the Health Sciences; and the Institute for the Study of Human Knowledge.

For further information call x3904.

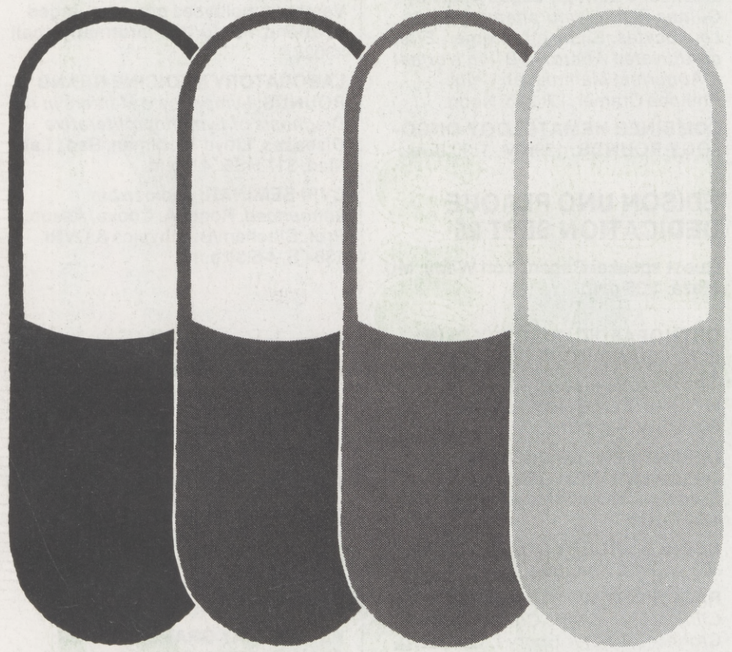
DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the period October 4-17 will be *Tuesday, September 23, 11 a.m.* Please send your copy to Allen Balderson, News & Public Information Services, 1475-4th Ave., extension 1541 or 2557.



The Department of Epidemiology and International Health has been awarded a $5 million four-year pilot project by the National Heart, Lung, and Blood Institute, Division of Heart and Vascular Disease. The study, called Systolic Hypertension in the Elderly Program (SHEP), will attempt to test and identify effective drug therapy for Isolated Systolic Hypertension (ISH) (the form of the disease caused by the hardening of the larger arteries).

The study will test four drugs and the two that prove to be the most effective in reducing blood pressure without significant side effects will be recommended.

Five hundred people over the age of 60 who have ISH will participate at five clinical centers located at the universities of Alabama, Pittsburgh and Washington (St. Louis), Kaiser Research Foundation in Portland, Oregon, and Rush Medical College in Chicago. UCSF will collect and analyze data from the centers and monitor the entire study under the direction of W. McFate Smith, clinical professor and Stephen B. Hulley, adjunct associate professor, both in the Department of Epidemiology and International Health.

The following actions have been taken in response to recommendations of the Chancellor's Ad Hoc Committee on Personal Safety:

GARAGE SECURITY

- The Millberry Union west stairwell ceiling has been painted white to further improve illumination. Other stairways should be used only during emergencies.
- Proposals to improve lighting on the H level of Millberry Union are under review, and a contract to begin work will be finalized in September. Every effort will be made to effect an early completion date.
- Staff and visitors driving to campus between 6 p.m. and 7 a.m. are asked to enter the garage only through the public entrance on Parnassus and to park only on H level. A shuttle bus makes regular stops on H level and will transport people across Parnassus. The shuttle should also be used when returning to vehicles.

GENERAL CAMPUS SECURITY

- All exterior doors have been checked and broken locks have been repaired or replaced.
- A proposal to have controlled access between 6 p.m. and 7 a.m. to Moffitt, Medical Sciences, Clinics, and UC Hospital is being studied for its full impact.
- A new women's lounge area is being constructed on the second floor of Moffitt for individuals who prefer not to use the basement lounge. It will have several safety features including peep holes in the doors and panic alarms.
- Peepholes will be installed in the HSE and HSW corridor doors during October.

NEWS BRIEFS

(Continued from front page)

• A letter from Nat Garibaldi, manager, Physical Plant Department has been sent out to campus managers detailing instructions for reporting building deficiencies.
• The Personnel Office has sent out an announcement giving instructions for obtaining name pins for all staff working non-standard hours.
• The Police Department has notified campus managers that they may request department security surveys to obtain suggestions to improve personal safety.

SAFETY CLASSES

• A Self Defense Workshop will be held Saturday, September 27 in Room C 130 from 9 a.m. to 5 p.m. It is free for UCSF students, faculty and staff; general $15.
• Self Defense classes are scheduled as follows: Mondays, September 29 through December 15 from 5:30 to 8 p.m. in Room C 130; Tuesdays and Thursdays, September 30 through December 4 from noon to 1:30 p.m. (Tuesdays in Room C 130 and Thursdays in Room N 517). The fee is $10 for UCSF students, faculty and staff; general $25. Advanced classes are also available on Thursdays, October 16, 23, and 30 from 7:30 to 10 p.m. in Room N 517. The fee is $18 for everyone.
• Tear Gas (MACE) classes will be given at no charge on the second Wednesday of each month. Class is open only to UCSF students, faculty, and staff. Pre-registration is required for all classes. For further information on classes call x5683.

The next UCSF Blood Donation Day will be on Monday, October 13 from 8 a.m. to 4 p.m. in the mezzanine lounge area of the School of Nursing building, and in the main lounge of Millberry Union from 10 a.m. to 5:30 p.m. Appointments can be made in advance by calling the Moffitt Blood Bank at x4013.

When someone donates blood on campus, a hospitalized patient may reap direct benefit from the donation, or the blood may be designated for a UCSF Blood Bank Account, a UCSF Obstetrics Account, a personal account in the donor's name, or as a direct replacement in the name of any patient who has already received blood transfusions.

This is the last of three drives held annually. A total of 225 pints of blood were donated to the Irwin Memorial Blood Bank during the blood drive in May.

The Associated Students of UCSF (ASUCSF) will once again sponsor a prize of dinner for two, with wine, at Scott's Seafood Grill, S.F. Sharon Zwerin, supervisor of Hospital Admissions was the raffle winner in May. To be eligible, donors must drop their donation receipts in a box at either blood donation site.

Training in family life education and social skills development for teachers and parents of disabled students is available through the Sex and Disability Unit of the Human Sexuality Program. Priority will be given to those individuals working with either visually or hearing impaired students. Applications from special educators and parents of students with other disabilities will be accepted as room permits.

Two separate activities of the project will be conducted this year — Social Skills Development Training (February 7 and 8) and Training in Sexuality and Family Life Education (April 12-15).

For further information contact Carla E. Thornton, director, Family Life Education Training Project, Sex and Disability Unit, 814 Mission St., 2nd fl., S.F. 94103, or call x1066.

The 11th Annual Paul M. Aggeler Memorial Lecture will be held on Tuesday, October 7 at 11:30 a.m. in Carr Auditorium, SFGH. Yuet Wai Kan, professor of Biochemistry and Biophysics will present "Hemoglobins and the New Genetics."

Kan, internationally known for his research on thalassemia, sickle cell anemia, and other genetic blood disorders, was winner of the 1979 Damasheck Award from the American Society of Hematology.

The Aggeler Lecture honors the late professor of Medicine who was chief of Hematology at SFGH from 1963-69 and a world authority in the field of coagulation.

The Office of Public Service Programs has extended its deadline for submitting information on important UCSF public service contributions. The new deadline is Friday, October 10.

The information is being used to update a directory summarizing the important public service contributions made by individual UCSF faculty, staff, and departments. Several individuals on campus serve on boards of directors, advisory groups, task forces, community oriented social service projects, or provide educational services that link the resources at UCSF to community needs. These contributions are sometimes made outside of usual work and can be taken for granted. The directory will serve to recognize these individuals and departments and will be provided to various departments and offices on campus.

For further information or additional directory questionnaires contact David Bracker, Community Health Programs Manager at x3206.

"Over Easy," KQED's TV show dealing with problems facing senior citizens, will feature three UCSF faculty members during the month of October.

Marion Nestle, associate dean, School of Medicine and lecturer in Medicine and Biochemistry, will speak on "Nutrition" on Wednesday, October 8 and on "Low Salt" on Wednesday, October 15. On Monday, October 13, Carroll L. Estes, professor, School of Nursing, Social & Behavioral Sciences, will be featured in a discussion on the "White House Conference on Aging." Samuel J. Wycoff, chairman and professor, General Dentistry, School of Dentistry will make his third appearance on the show on Thursday, October 23. He made two appearances last year.

"Over Easy" is shown on Channel 9 at 7:30 p.m and at 12:30 p.m. the following day.

A program offering a variety of career planning services is available to all UCSF employees. A career planning specialist offers confidential, individual career counseling to help employees assess their work skills, define clear, practical career goals, and acquire information and techniques to enhance job exploration. The specialist is also available to consult with managers and supervisors in areas of problem identification, referral, and employee career planning strategies.

The Career Planning Program includes:
1) A Staff Resource Center being developed at 1379 - 3rd Avenue, open from 8 a.m. to 5 p.m. weekdays, where employees can review career and educational material
2) Individual and Group Career Counseling
3) A series of workshops including Career Assessment and Planning, Oct. 21; Skills Assessment, Oct. 28; Writing a Resume, Nov. 4; and Interview Techniques, Nov. 11
and
4) Consultation with Managers and Supervisors.

For an appointment or further information contact Susan Eveleth, career planning specialist, Development and Training Office, x4032.

This year marks the 100th year of voluntary sterilization for women in the U.S. Sterilization procedures have evolved to the point that they can be safely performed on an outpatient basis. However, access to sterilization may not always be available for low income women, according to Jane T. Meier, director of the UCSF Family Planning and Female Sterilization Projects at SFGH.

To help remedy this, the State Department of Health Services funds the Sterilization Project and makes available free education, counseling and surgery to women 18 or over who qualify under the State's income guidelines. Group information sessions and individual and couple counseling insure that informed consent standards are met and that each woman has the opportunity to examine her values and attitudes toward sterilization before consenting to surgery. For further information call 648-6300.
